About Me

Motivated Frontend Web Developer with hands-on experience in building responsive and user-friendly web applications using HTML, CSS, and JavaScript. I enjoy transforming ideas into functional interfaces and have worked on real-world projects involving dashboards, event management systems, and API-based applications. Passionate about clean UI, scalable code structure, and continuous learning.

Technical Skills

Languages: HTML5, CSS3, JavaScript (ES6+), Python (Basics), C++ (Fundamentals)
Frontend: Responsive Design, DOM Manipulation, UI/UX Principles
Tools: Git, GitHub, VS Code, Chrome DevTools

Projects

EventMate – Event Management System (MVP v1.0)

- Developed an event registration and management system using JavaScript
- Built an admin dashboard to manage events and registered users
- Implemented dynamic pricing logic for events
- Designed a responsive UI for both admin and users
- Live Project: https://syedaakibhossain-prog.github.io/EVENT_MATE/
- Source Code: https://github.com/syedaakibhossain-prog/EVENT_MATE

Weather Web App

- Built a weather application using JavaScript and weather API
- Displays real-time weather data based on user input
- Clean and responsive user interface
- Live Project: https://syedaakibhossain-prog.github.io/weather_app/weather.html
- Source Code: https://github.com/syedaakibhossain-prog/weather_app

Education

Bachelor's Degree (Pursuing)
India
